Summa helps customers make the right technology investments by first assessing the client's current business environment, and then recommending and implementing the technology solutions that improve customer satisfaction, employee productivity and partner relationships.

Background

Summa has been providing high-impact IT consulting services and creating commercial-grade, custom IT applications for organizations of all sizes, including Global 2000 companies, since 1996.

Technology + Business

Summa provides its customers with solutions to their business problems through the disciplined use of technology.

By leveraging the best combination of people, process and technology, Summa collaborates with its customers to evaluate and implement IT modernization strategies to better meet their business objectives.

Customers

Over the past 12 years, Summa has worked with customers in many industries including financial services, manufacturing, telecommunications, retail, insurance and technology. Many of Summa's customers are leaders in their field. Some current customers include:

- Federal Home Loan Bank
- Rockwell Automation
- Crown Castle
- Sheetz
- Highmark

Solutions

Areas of expertise for Summa include:

- Application Modernization
- SOA and Integration
- Portals
- Performance
- Architecture and Application Development
- Software Product Development

Partners

To provide comprehensive solutions to our customers, Summa partners with leading technology companies and complementary service providers including: IBM Corporation, Microsoft Corporation, Oracle, Rockwell Automation, LotterShelly and HarvestGold.
