

SUMMA DRIVES BUSINESS VALUE THROUGH SUCCESSFUL SaaS INTEGRATION

Achieve short-term results and long-term value with Summa's SaaS Integration Practice

Software as a Service holds extraordinary promise for organizations of all sizes and across all industries, providing critical functionality in an agile architecture, without the burden of procuring additional on-premise resources. SaaS can offer a quick and easy approach to application deployment, but at the same time it presents your organization with complex choices and new risks. You also face the challenge of successfully integrating your SaaS applications with your existing on-premise infrastructure, and establishing processes that will serve your business over the long term.

How Summa Can Help

With deep experience in both on-premise and cloud deployments, Summa understands the key questions each organization must consider as you tie your SaaS solutions into your core applications. Summa can help you build and implement a SaaS integration strategy that delivers immediate business value. Through SaaS integrations such as Salesforce.com, Summa can also help position your organization to manage growth and change, all while leveraging your existing IT investments.

Summa can help you tackle every aspect of your SaaS implementation, including:

- ☼ Business process modeling
- ☼ Integration strategy
- ☼ Data quality
- ☼ Application performance
- ☼ Privacy and security
- ☼ Governance
- ☼ Service level agreements
- ☼ Private cloud versus public cloud

Our customized SaaS integration offerings include:

- ☼ Vision workshops
- ☼ Architectural assessments
- ☼ Design sessions
- ☼ Strategy roadmaps
- ☼ Proof of technology
- ☼ Product development and full-lifecycle implementation
